

SLIDE SEQUENCE:

Title slide - Intell. Lev.

Outline slide - Some questions

Outline slide - Where does the leverage come from?

- Bird opening milk bottle
- Innovation diffusion map
- Macaques washing food
- Diffusion of agriculture

Outline slide - "Seeing" the infrastructure

- Innovation diffusion and displacement plot, A versus B
- History book cover
- Fun - child at play
- Work - farm family in Nebraska

Outline slide - Using our infrastructure to design new infrastructure

- Book cover - new design methods
- Design project slides sequence (6)
- Multi-project implementation (3)
- Map of the network
- Remote-MPC sequence
- Block diagram of ImpSys
- Alan merging the designs
- Information and artifact sequence
- Artifact photo
- Chip photos (2)
- Data on the innovation and diffusion of design tools
- Experimental method for testing and propagating
- Phases in the testing and propagation of a system
- Cluster of systems jointly evolving
- Strong methods diffusion and displacement plot, A versus B

Outline slide - What are the limits (now, and ultimately) to what we can create?

- Exploring Zermatt (3)
- LOOPS logo
- Truckin game board and artifacts (3)
- Preparing a knowledge-server as a game-player
- Watching the final playoffs

Outline slide - Conclusion

- Bird opening milk bottle
- Alan merging the designs
